## The Positive Feedback Just Keeps on Coming...

At Coast to Coast Coins we strive for complete customer satisfaction. Here's a sampling of what our customers are saying about us:

I just received the 1799 Large Cent I had ordered from you. It is exactly as advertised and pictured. Thanks for selling high quality coins and for great customer service. B.T.

Thanks for the marvelous Isabella Quarter and the fast service. This coin looks better than the image! W.C.

Hi, I just wanted to let you know the AU Bust Dime I ordered was even nicer than the picture on your website - in my hand, it has some PL qualities on both sides! It's not graded that way, but there's definitely some nice reflectivity! I've been pleased with several other purchases in the last two months, including a beautiful MS65 Flying Eagle Cent, which I have wanted since I was a teenager (in 1968!), and you had a beautiful example with perfect copper-nickel luster front and back. I also bought a lovely champagne-silver Three Cent Piece (MS64) and a very nice XF45 1797 Large Cent, my first acquisition of a quality coin earlier than 1800!! I look forward to checking your new inventory during the coming year. N.P.

I just received the 1855 Proof Half Cent. Me thinks PCGS was tough with the assigned Pr 63 grade. With the unaided eye I don't see a single mark on the coin, anywhere. This coin should fit nicely into the 1855 Proof set I've started with 64-65 being the target grade for all denominations. Thanks. I'm a happy collector this morning! C.R.

Hi Folks. This coin arrived safely today. It's a beauty. More photos could have shown. Very pleased, and more business with you in the future. Thanks. M.J.

I'm writing...

### THIRD PARTY GRADED COINS & CURRENCY

The coin market is speculative and unregulated. Many areas of numismatics lend themselves to third party grading and authentication. Such certification does not eliminate all risks associated with the grading of coins and currency. Grading is a subjective matter and opinions as to the grade of a certified or uncertified item can differ. Items graded by the various services carry the guarantees, if any, of that particular service. Securing performance on any such guarantee is strictly between the purchaser and the particular grading service. Coast to Coast may or may not agree with the grade assigned by the particular grading service. Buyer should be aware that grading standards of coins have changed from time to time in the past and may do so again in the future.

NO OTHER REPRESENTATION, WARRANTY OR GUARANTEE IS GIVEN EITHER EXPRESSED OR IMPLIED.

**Certified Acceptance Corp. (CAC)**... is an independent third party that awards their approval to coins that they feel are superior for their grade - the best of the best! We are proud to be CAC members and carry quite a few coins that have their stamp of approval.

## Free Shipping on orders of \$500 or more.

### GRADING OF 'RAW' COINS & CURRENCY

**Coins:** Our grading is based on Photograde and our interpretation of industry standards.

**Paper Money:** Our grading uses the industry standard as described in Robert Friedberg's, Paper Money of the United States.

# — Scarce Carson City Mint Gold Coins —

*The Carson City Mint started striking coins in 1870 and was started primarily to handle the silver coming out of the Comstock Lode in Nevada. But they also struck gold coins in five, ten, and twenty dollar denominations. These are scarce and highly desirable coins that enjoy tremendous collector interest.*

*Here are a few of the better pieces we currently have in stock.*

## 1873-CC \$5 Gold Coin

PCGS. AU-50

A very rare date with a mintage of 7,416 and fewer than 100 known. Most are well worn. This is very attractive with strong detail & problem-free surfaces.

**Only \$27,750.00** #246351

## 1881-CC \$10 Gold Coin

PCGS. AU-55

Well struck with bright lustrous surfaces that show just a touch of 'rub'. Only 24,015 pieces minted.

**Only \$7,750.00** #232724

## 1874-CC \$10 Gold Coin

PCGS. XF-45

Scarce in any grade with just 16,767 minted. Well struck with a clean look. Very elusive in any higher grades with only 1 coin at PCGS & 1 coin at NGC achieving a mint state designation.

**Only \$12,500.00** #249574

## 1884-CC \$10 Gold Coin

NGC. AU-55

An attractive example of this scarce date with strong detail & choice surfaces. Diagonal lines on Liberty's neck are from the die & diagnostic for the date. Just 9,925 pieces minted.

**Only \$9,450.00** #242755

## 1876-CC \$10 Gold Coin

PCGS. VF-30

Just 4,696 minted and very rare as are all early Carson City 'Tens'. This is an attractive example with solid detail and pleasing surfaces.

**Only \$14,375.00** #248884

## 1889-CC \$20 Gold Coin

NGC. AU-55

Well detailed with brilliant and lustrous surfaces and a pleasing appearance. 30,945 pieces minted.

**Only \$8,750.00** #210348

## 1878-CC \$10 Gold Coin

NGC. AU-53

Attractive yellow-gold surfaces that exhibit ample remnant luster and a strong strike. The look is far cleaner than what is normally seen on early CC gold. Marks are few and minor with none of significance. The 1878-CC is among the rarest eagles from not only the Carson City Mint but also in the entire \$10 Liberty series. Of 3,244 pieces minted, only a scant 60-75 pieces are believed to still survive. Only 15 pieces have graded finer at NGC with the highest graded being a single MS-61 example.

**Only \$32,500.00** #238774

## 1892-CC \$20 Gold Coin

NGC. AU-58

Nice brilliant lustrous surfaces and a sharp strike. Just 27,265 minted with this example being just shy of a mint state designation. A very eye-catching example.

All of this is complemented by a faint hint of gold hue. The strike is uncommonly sharp and marks are of no significance. DMPLs of this date are virtually non-existent w/only 15 pieces acknowledged at any grade level and only 4 pieces have graded finer at PCGS. 1869. \$10. F-96. PCGS. Gem-66. PPQ. LTN. Portrait of Daniel Webster, former US Congressman, Senator, & Secretary of State. A simply stunning 'Rainbow' Jackass that earned its name from its beautiful blend of vibrant green, black, & red inks. In addition, notes were printed on specially prepared paper that contained a strip of blue that was to aide in counterfeit detection. This 'Rainbow' was found on notes only issued under the series 1869. Later series were more traditional and not nearly as colorful. This example is framed by bright nearly even margins. The early intricate design reverse is on display. Fantastic eye appeal and an extremely desirable high end 'Gem'!

Gold Cert. A striking portrait of Abraham Lincoln rests upon premium paper that still retains its originality and quite a bit of its brightness. Wear is light, gentle, and well in line for the grade. The black color is still rich, the red seal is still strong, the blue serial numbers still offer pizzazz, and the orange ink on both sides remains fresh and unoxidized. Margins are well framed and more than ample. As with all varieties in this issue, this example is very elusive with only 55 known in all grades, many of which would only rate as 'details' pieces.
